**Farm Safety Week Named** - The week of July 25 through 31 has been proclaimed as National Farm Safety Week by President Jimmy Carter. The theme of this year's observance, "Safety is a Good Investment", was designated by the National Safety Council and the U.S. Department of Agriculture, joint sponsors of this annual event.

This is the 34th consecutive year in which the nation has paid special tribute to farm safety as a means of reducing costly accidents that cut agriculture productivity and bring great personal loss to thousands of farm families annually.

Accidents in 1976 claimed the lives of approximately 5,400 farm residents and caused about 500,000 disabling injuries, according to preliminary estimates from the National Safety Council. About 1,900 deaths and 180,000 disabling injuries were classified as farm work accidents. Work deaths and injuries to farm and ranch residents accounted for 1,300 and 130,000 of these totals respectively.

The dollar loss attributed to these accidents, injuries, and deaths now approaches $3 billion annually. The cost in terms of human suffering, grief, and hardship, however, cannot be calculated.

Improved safety technology, training, and education are in large part responsible for a declining death rate resulting from accidents to farm residents. These efforts alone are of little value unless safety is made a personal commitment and an integral part of everyday living.

**Commodity Loans** - As farmers in the county are harvesting grains, you may be interested in checking out our commodity loan program. This program is set up so that the farmer can obtain working capital by taking out a loan on stored commodities. The loan rates are as follows: wheat - $2.23 per bushel, barley - $1.47 per bushel, oats - $1.10 per bushel and rye - $1.63 per bushel.

For a farmer to obtain a loan, he would need to come to the ASCS office and certify as to the amount of the commodity he has stored on his farm or in an approved warehouse. If the farmer wishes he can request measurement service for the stored commodity on his farm.

In processing the application we can make a loan on 90 percent of the stored commodity at an interest rate of 6 percent computed on a daily basis. The loan maturity date is the last day of the eleventh month following the month in which the loan is disbursed. An example would be as follows: a loan made in July 1977 would come due June 30, 1978.

**Storage Structure And/Or Drying Equipment Loans** - If you do not have adequate storage facilities on your farm for storing harvested grains you may want to check with us about our storage structure and dry equipment loan program. Grain storage gives the cash crop farmer the option of selling when the price is right, and farmers who use their harvested grains for their on-farm feeding operations can maintain their grains in an efficient manner. Loans are available at the ASCS office at 7 percent interest covering a five-year period. The amount we may loan is limited to 85 percent of the cost of eligible items. During the five-year period farmers make four equal annual installments with interest computed on the unpaid balance.

Four local ladies have returned from a trip abroad on the deluxe Rhine Steamer shown in above photo. In the background can be seen the beautiful Swiss mountains.

**RETURNED FROM TRIP ABROAD**

Mrs. Howlette B. Martin, Mrs. Jessie R. Carwile, Miss Sue B. Cross and Mrs. Rachel F. Lawson have returned from a Rhine River Cruise and a visit to the countries of The Netherlands, Germany, France and Switzerland.

A party of 200, members of the Virginia Automobile Dealers Association and their guests, left Dulles Airport on the evening of June 11th, on a chartered Pan American plane and landed in Amsterdam, The Netherlands, the following morning, having gained 5 hours in time. The same evening the party enjoyed a two hour cruise along the floodlit canals and the Amstel River. The house boats along the waterways were most interesting and the flowers were spectular. Another catcheye were the beautiful lace curtains which hung from the windows of modest as well as palatial homes.

On June 13, the party traveled from Amsterdam to Dusseldorf, Germany where they boarded the Rhine River Steamer, "The Britannia" and cruised for five days. En route to Lucerne, Switzerland, side motor tours were enjoyed in Germany and France and time was allowed for shopping.

Lucerne is a beautiful lakeside city with 14th and 15th century bridges with their famous paintings. Lucerne is a wonderful city for shopping, being the "Watch Capitol" of the world. The VADA group were fascinated with shopping in this city and it is estimated that at least 500 watches were purchased there along with beautiful linens, glass ware and smaller articles, by the members.

In the same block with the Deluxe Palace Hotel where we stayed, was a casino which offered excellent dining, entertainment, music and dancing.

Optional side trips to Mt. Pilatus, Grimsel-Furka Passes and Rhone Glacier were offered. On Sunday, a majority of our group enjoyed a nine hour motor trip to Interlaken, Lauterbrunnen and Grindelwald, located in the Swiss Alp Mountains. The scenery was breath-taking and the flowers prompted many amazement expressions.

On June 20th, we traveled by motorcoaches to Zurich where we boarded our Pan American plane (seven hours late) for that best of all trip to "Home Sweet Home."

Also on this trip was Mr. and Mrs. Bob Carter of Roanoke. Mr. Carter has been associated with the VADA for many years. He participated in the business meetings conducted on board of "The Britannia." Mrs. Carter is the former Miss Josephine LeGrand of Appomatox, better known as "Mit."

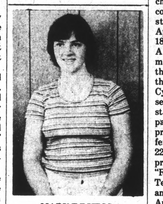
While in Lucerne, the Appomatox party knew the itenerary of a Globus Tour with several of their friends participating. They were located at the Europe Hotel, just three blocks from the Palace Hotel. Mrs. Helen P. Anderson and Mrs. Hazel Martin were surprised when Mrs. Carwile and Mrs. Lawson tapped on their door and visited with them. Mrs. Easley S. Ferguson was on the same tour but had been assigned to another hotel.

Vickie Moore, daughter of Mr. and Mrs. Russell Moore, had traveled from Zurich to spend the week-end with Mrs. Anderson and Mrs. Martin. They were happy to see her sitting in the lobby of the hotel on their arrival. Miss Moore is studying in Zurich this summer along with a group of students from Lynchburg College. She is touring Europe on her free week-ends.

The Virginia Travel Services Inc., of Richmond, with C. O. Alley and his family, agents, making all arrangements, accompanied the VADA group. They left nothing out to make this a most enjoyable trip. The members of the VADA group are most grateful to Mr. C. O. Alley, his two sons and their wives for this wonderful and well planned trip.

**WINS SPELLING BEE**

Congratulations to Allison Peters for winning the Championship Award in the school spelling Bee. She was also selected as the most friendly girl of her class. She received these awards Saturday afternoon at an outing she attended at the home of Mr. and Mrs. Raymond Dickerson. Allison is the daughter of Mr. and Mrs. Burt Peters of Pamplin.



**MARY F DYESS**

## Mary Dyess Elected Secretary, State FHA

Mary F. Dyess, a junior at ACHS and daughter of Mr. and Mrs. Monroe Dyess of Appomattox, was elected secretary of the Virginia Association, Future Homemakers of America during the annual Leadership Conference held last week at Hotel Roanoke, Roanoke, Virginia. As state secretary, Mary will keep a written record of executive council meetings and handle all official correspondence for the State Association. In addition to her duties as secretary, she will also serve as chairman of a State Committee, work on projects to help individual FHA Chapters and attend executive council meetings throughout the State of Virginia.

On July 7th, Mary will leave for Seattle, Washington to attend the National Convention of Future Homemakers of America as a voting delegate. Several tours have been scheduled in Seattle and in British Columbia. Upon her return, she will begin preparation for the summer executive council meeting to be held at Bridgewater College, Bridgewater, Virginia.

Mary has contributed to the FHA program on the local, federation and state level. She has received her Junior and Chapter Homemaker Degrees and plans to work on her State Homemaker Degree this year. As president of her local FHA chapter this year, Mary will coordinate activities on the state level with those in Appomatox. there are over 18,000 members in the Virginia Association, Future Homemakers of America, with more than 450 delegates attending the state conference. Teresa Cyrus, a graduate of ACHS, has served as Vice-president of the state association this year. She participated in planning and presenting the leadership conference. On Wednesday, June 22nd, Teresa presented a slide program on her officers' project "Reach Out From Within". Teresa is the daughter of Mr. and Mrs. Harry Cyrus of Appomattox and will attend James Madison University this fall.

Advisors for the Appomattox Senior chapter are Mrs. Gale McCraw and Mrs. Betty Jo Smith.

"PONY EXPRESS"

I bet you didn't know that there is still such a thing as "pony express." Well, there is. At the Holiday Lake 4-H Educational Center we have a pony express. Cynthia Jones, better known as "Cyn" at the camp, rides her favorite pal "King" to the mailbox to deliver and pick up mail. "Cyn" is from Lexington, Va. and attends Mary Washington College. She teaches Horsemanship at the 4-H Educational Center and enjoys horses.

**COVINGTON COMPLETES COURSE**

Robert Walker Covington, Jr., of Pamplin, an installer-repairman at the Amherst location of Continental Telephone of Virginia, has completed a course in the fundamentals of key telephone systems. The 15-day course was held at the Continental Telephone Training Center near Amherst, Virginia.

The course is a study of the circuitry, installation, wiring and repair of key telephone systems. ( A key system is an electro-mechanical switching system into which a number of separate telephone lines can be connected. In this way, one operator can answer a number of incoming lines.)

Fundamentals of key systems puts particular emphasis on having the student install new key systems and rectify troubles in working key systems. The instructor increases the amount of complexity of the troubles throughout the course, so that each student's knowledge of the equipment is similarly increased.

Covington has been with the Continental System since January, 1963.
